ABRAHAM RHODES PEIRCE.

Maysville has lost another old and respected citizen in the person of A. R. Peirce, who died last evening at 5 o'clock at his home in Limestone street, at the advanced age of 83, after an illness of only a few days, having contracted a severe cold, which terminated in his demise.

He was born in Philadelphia, Pa., January 15th, 1825, being at the time of his death, 83 years, one week and one day old.

He has been a resident of this city over 60 years and during that time has been highly esteemed and respected as a good citizen.

The greater portion of his life was spent on the river, but of late years he has been engaged in business in this city.

He was a life long and consistent member of the Baptist Church, and one of the oldest members of Ringgold Lodge, I. O. O. F. and Encampment.

Fifty-eight years ago he married Miss Mary

Jane Crowell in this city, who survives him.

The funeral will be under the auspices of the Oddfellows and will take place from the Baptist Church Sunday afternoon at 2 o'clock. Interment in Maysville Cemetery.

WILLIAM T. HORD

William T. Hord died last evening at 7:30 o'clock at his home near Wedonia, of a complication of diseases, aged about 50 years. His wife preceded him to the grave over seven years ago.

Funeral tomorrow at 1:30 o'clock p. m. from Millcreek Church, and interment in the Dobyns Burying ground.

Hiram Jett, the Bracken county farmer, who was engaged in selling his tobacco to the American Tobacco Company here, Wednesday transported it to Aberdeen and hauled it to Manchester, where he had no trouble in disposing of it.

William Maley, residing near Flemingsburg, delivered a crop of tobacco yesterday to the American Tobacco Company in this city, for which he received 13 cents, netting him a total of \$1,000. Mr. Maley said that himself, father, brothers and immediate neighbors had all signed to cut out the 1908 crop, hence there would be no tobacco grown in his vicinity this year.

COULD NOT WALK FOR FOUR MONTHS
Mass of Itching, Burning Humor on Ankles—Feet Fearfully Swollen—Opiates Alone Brought Sleep—Many Treatments Failed but

TORTURES OF ECZEMA YIELDED TO CUTICURA

"Cuticura Remedies are all you claim them to be. I had eczema for over two years. I had two physicians, but they only gave me relief for a short time and I cannot enumerate the ointments and lotions I used to no purpose. My ankles were one mass of sores. The itching and burning were so intense that I could not sleep. I could not walk for nearly four months. One day my husband said I had better try the Cuticura Remedies. After using them three times, I had the best night's rest in months unless I took an opiate. I used one set of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent Pills, and my ankles healed in a short time. It is now a year since I used Cuticura, and there has been no return of the eczema.

DISFIGURED
For Life Is the Despairing Cry of Thousands

Of skin-tortured and disfigured victims of humors, eczemas, tetter, and rashes, who have tried and found wanting many remedies, and who have lost faith in all. To such Cuticura Soap, Ointment, and Pills appeal with irresistible force. They are absolutely pure, sweet, gentle, and wholesome. They afford immediate relief in the most distressing cases, and point to a speedy cure when all else fails.

DEATH IN THEIR OCCUPATION.

Makers of Mirrors Poisoned by the Vapor of Mercury.

Every mirror is made at the cost of human suffering and poisoning. The silvering of the glass by applying a layer of tin foil alloyed with mercury involves so much risk of poisoning, the work people constantly breathing the mercury vapor, that numerous attempts have been made to use another metal for the purpose.

It was shown by Liebig that a fine adherent deposit of metallic silver could be applied to glass by reducing a solution of a silver salt with milk sugar, so this method has been employed as a commercial process. There have been partly successful attempts to get a like deposit of copper.

The mirror often lacks brilliancy and is usually disfigured with stains. But it has been found by one F. D. Chattaway of England that solutions of copper salts can produce brilliant reddish films of metallic copper which are as perfect reflectors as silver mirrors. His method of coating glass with a layer of copper, it is thought, will probably be used extensively in making mirrors and other glassware articles.

FOUND A CURE FOR INSOMNIA

One Sufferer Testifies That Deep Breathing Helped Him.

"I have been troubled with insomnia all my life," remarked the nervous man, "and like most people similarly afflicted I have tried all the familiar dodges to induce sleep. The results were never particularly satisfactory in the way of producing the desired effect until one night I thought I had actually found a sleep-inducer when I chanced to grasp one of the rods at the head of my bed with both hands and practically hung the weight of my body on them. That sent me to sleep and it did the same thing for a few times, when to my extreme disappointment, I found it had ceased to work. I was as badly off as recently, until one night, when I had a bad cough, as well as an attack of sleeplessness. I tried the well-known remedy of trying to send myself off into the land of nod by taking long deep breaths. What it did to me, and has done several times since, was not to only send me to sleep, but to stop my cough. Just why it did so is not of much consequence. That it did so is the thing that concerns me most."

Russia's Great Library.

One of the greatest monuments to the memory of that benevolent despot, Peter the Great, is the imperial library of Russia, established by him in 1714. Present ranking places it third among the world's great libraries. It is preceded by the National Library of Paris and that of the British Museum of London. It contains 1,500,000 volumes and 26,000 manuscripts. The most important accession it ever received was probably at the time of the suppression of the Society of Jesus in Russia, when most of the Jesuit collections were transferred to the imperial library. Among them was the famous collection of Count Zaluski, consisting of 260,000 volumes and 10,000 manuscripts. The most important manuscript in the library is the "Codex Sinaiticus" of the Greek Bible, brought to Russia by Prof. Tischendorf in 1859 from the convent of St. Catherine on Mount Sinai.

Red-Haired Charmers.

"There are no red-haired old maids."

The speaker, a red-haired actress, lighted a fresh cigarette and went on:

"The red-haired have an excess of iron in their blood. This causes them to overflow with vitality, animal spirits, gaiety, wit, charm—but I must not boast, must I?"

She smiled, and smoothing her ruddy locks with a slim white hand, she added:

"At any rate, it is a palpable fact that the red-haired girl never gets left. As a rule she is married at 20. A red-haired old maid is a greater rarity than a millionaire anarchist. Leap year begins with 1908, but we red-haired girls have no need of leap year."

Tinfoil Valuable.

Several of the best-known chocolate manufacturers on the continent are advising customers not to throw away the tinfoil in which the chocolate is enveloped, but to keep it until called for by an agent, who will gladly pay the market price for it. The present high price of tin is due to the action of English and Dutch speculators, who have forced it far beyond its actual value. The chocolate industry in Europe spends nearly \$4,000,000 annually for tinfoil, which is generally thrown to the winds.

Impudent Boy.

"Mamma," asked Tommy, "what year were you and papa married?"

"In the year 1906, dear," answered Mrs. Hunker.

"Was that a leap year?"

"I believe it was."

"Why, mamma, did you have to—"

"No, I didn't, you insolent little rascal!" interrupted his indignant mother. "And I've a great mind to spank you for thinking of it!"

A Literal Youth.

"Why, Johnny," said Mrs. Muggins, "what are you doing here? Is Willie's party over?"

"None," blubbered Johnny. "But the minute I got inside the house Willie's father told me to make myself at home, and I came."

GRANT TUNNEL

Back of Covington Completed Yesterday After Three Years Work

Yesterday witnessed the completion of the repairs to the Grant's Bend Tunnel, back of Covington, on the L. and N.

The tunnel, which is three-quarters of a mile in length, and one of the largest in this part of the country, has been widened and made higher throughout its entire length, to admit of its use by larger rolling stock.

The work of improving has been under way for several years. Several accidents occurred during the process of the work.

THE MAN FROM MAYSVILLE

Langhorne T. Anderson, Well Known Breeder of Driving, Coach, and Saddle Horses, Will Probably Establish Stud in City of Mexico

The Mexican Herald.

Mexico is attracting the attention of the fancy stock breeders of Kentucky, and for the purpose of establishing a stock farm and a breeding stable for fancy driving, coach and saddle horses, Langhorne T. Anderson, one of the best known breeders of thoroughbred stock in Kentucky, is now in this city. Mr. Anderson is the proprietor of Point au View Stock Farm, at Maysville, Ky.

In part Mr. Anderson said: "I propose in the event that I locate in Mexico to bring a large number of thoroughbred saddle, driving and coach horses to this city, in addition to the thoroughbreds for the breeding stable. In connection with this stable I will have an establishment in this city where I will have on hand for sale at all times a lot of fancy horses for every purpose and will keep a buyer in Kentucky, who will from my farm there work in harmony with the farm in Mexico, and keep the stable here up to a high standard at all times. Associated with me in the business will be J. J. Coffman, a wealthy real estate dealer of San Antonio."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. GET RICH QUICK.

Schemes of this class have again come to grief along with the gullible investors, causing serious loss to innocent business concerns, as is always the case of panics in Wall St.

While this last lesson is yet fresh in mind, it is an opportune moment to consider causes and means to avoid like trouble in the future.

Direct your attention to that greatest of all Newspapers the Cincinnati Enquirer. From its columns one can readily detect the trend of currency, its lodging places, by whom handled, uses made of it, and final results.

Again you read quotations of Bonds, Stocks, and Securities of every nature, fixing Status of all business from the retailer, to United States Government.

Also Current News, facts and reliable data covering the entire world; all sufficiently explicit to enable thinking people to avoid snags and follow the channel of success.

Its extra size and high price, is the secret of its ability to discover, obtain, print and serve its patrons with all the news, and cater to wants of people in every calling of life.

The Weekly Enquirer for the year 1908 has greatly increased its Clubbing offers which now include the most select and popular publications of the day at prices slightly over half the regular Subscription rates.

Do not overlook the fact that the year 1908 promises to excel in prosperity any of the past, and that the Enquirer printed at Cincinnati, Ohio, is one of the most reliable sources of information.
